Graphics Thoughts : For the time this game released the graphics were about what i would say was average for the time and this type of game.

VVVVVVVAudio\\\\\\\\\\\\\ Like Angels Singing Good [\u2192 Average \u2190] Bad I rather be deaf then listen to another second

Audio Thoughts : Audio isn't terrible or great, just adequate

V/V/V/V/Game Play//////// Everything else will be pale in Comparison [\u2192 Good \u2190] Average Bad Pushing a hoop with a stick was more fun

Game Play Thoughts :

The game play is where this game stands out, where there isn't many like it. Most RTS games you build your base\/town and control your units, In majesty your units are not controllable directly and actually move around on their own accord. You can provide for them with a market place or blacksmith so they can buy supplies and in return provide revenue to you their king. You can convince them to attack\/defend\/explore with Flags which you give a gold reward for them completing the objective.

Story Thoughts :

The story is...present? There's a general theme of what you're doing but is only delivered with a few paragraphs of dialog in every mission you tackle, while the adviser can say a humorous thing from time to time there wasn't really a whole lot of focus on the story. I don't believe this takes away from the game but even by RTS standards there is a lack of story.

Easy I forgot I was playing and won

Difficulty Thoughts :

There are many missions you can sit back, make your town, and enjoy watching your heroes run around doing your bidding. There is also several where you will have to focus up and manage very well to succeed which can be quite tedious but enjoyable. It never enters the territory of what i would call truly Hard (except for "Mortal Foibles of Kings" rush wizard towers is how i got past this one)

VVVVVVVGame Length\\\\\\\\\\\\\\\\

(To beat, Not completionist) I blinked and it was over (5 hours or less) Short (5 to 15 hours) Medium (15 to 30 hours) [\u2192 Long (30 to 50 hours) \u2190] You better settle in (50 hours plus) All Grind (As many hours as you're willing to put in)

Game Length Thoughts :

To complete the main game(expansions not included) i think at a comfortable pace you can complete it in 40ish hours. The expansions can range from 15 to 20 a piece. This is of course subjective to how often you have to restart a mission or what game speed you have set.

VVVVVVW The Money?\\\\\\\\\\\\\\

I would say for 20 to 25 dollars for the whole collection is easily a fair price. I think you can pick up the game without the expansions for 9.99 which is also a fair price to try it out i would say.

VV/V/V/VBugs?\\\\\\\\\\\\\\\\\

The only bug I've ever ran into is where when i try to resurrect a third hero in a guild it would kill off one of the other heroes in the guild. This only happened once in on mission.

If you like RTS and the idea of providing for your heroes rather then directly telling them what to do, then check it out for sure. You'll know pretty quick around an hour if you should return this or not. This has been one of my favorite games for quite some time and one of the few that i come back to every once in a while to rule as "your majesty" Mafia II DLC: Jimmy's Vendetta crack download free pc Assembly League [Patch] A Study in Steampunk: Choice by Gaslight [Patch] Clustertruck OST Ativador download Dungeon Shooter 2 Download] [crack] Happy World activation code download The Wizard's Pen trade: download no virus Space Pilgrim Episode III: Delta Pavonis Free Download [cheat] One Way To Die: Deluxe Edition full crack [Crack Serial Key Sweet fantasy addons
